

Nano Touch

Wood & Metal Paint

Colour Selection

Low VOC Waterbase Paint

Non Toxic
Non Hazardous
Eco Friendly

Unique Features

Our Vivasil Nano Touch Paint product is an aqueous inorganic -organic paint coating material based on chemical Nanotechnology. Self - organizing crosslink adhesion components, give the surface layered with hydrophobic properties. Vivasil nano touch paint can be used on direct metal, wood, concrete and plastered surfaces. Outstanding adhesion properties, the paints become embedded in the surface not just masking the wood and metal. High resistance to weathering, UV lights, fungus, dirt and algae. Exceptionally robust performance due to inorganic Nano particles incorporated in the paint matrix. Vivasil Nano touch Paint is a new technology high premium grade environmental friendly waterborne. The high durability protective coating specially formulated for wood and metal products application, gives long lasting beauty protective, giving the surfaces an attractive colour and requires minimal care. Vivasil Nano touch Paint is very easy to apply, performing superb fast-drying with a remarkable soft feel effect and provided the superior durability to performed excellent non-yellowing, superb wear and chemical resistance. Its superior product formula does not add heavy metal content, no lead, no mercury, no formaldehyde content. Vivasil Nano touch Paint also odourless. Lowest VOC content far lower than the national standards, give you and your family have the fresh feeling, cleanliness, safe and healthy environment. Benefits simultaneously reduces the long term -health risk.

- UV resistance
- Highly Washable
- Unlimited colours
- Apeo free
- Low voc
- Resists colour fading
- Odourless
- Alkaline resistant
- Anti fungus
- Anti efflorescence
- Anti mould
- Anti chalking
- Epoxy bonding technology
- Waterbeading effect
- Prevents weathering of wood and metal surfaces

Special features

- 100% Lead and mercury free
- Low VOC, and non toxic.
- Formulated without harmful chemicals

Application Method

Stir well before use.

Application can be done with brush or spray.

Ensure the painting surface are dry and free from dirt, and grease,

One coat of Vivasil Nano Touch Sealer and two coats of Vivasil Nano Touch Paint are recommended. For extreme weathering properties one coat of Vivasil UV Clear Coat are recommended as final layer

Dilution are not necessary, if thinning needed diluted with water 1 to 5 % to reach the suitable viscosity

Theoretical coverage 10 to 12m² per litre.

Vivasil Dry & Seal Water Repellent Primer is available in water based Exterior & Interior Treatment for newly plastered and concrete surfaces. Uses as deep penetrating impregnator water repellent, designed to help control Efflorescences. Designed to use as undercoat for Vivasil Silicone Breathable Painting System. 1 coat are recommended. Spray or roller. Do not mix water. Available in 5 & 18 litres.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Silicone Sealer is a Exterior Waterbase primer for repainting purposes is used as sealer to locks all loose particles on the wall and to create greater adhesion on the substrate. and prevents powdery surfaces Wash use waterjet high pressure 1500 psi before paint application. Its allow highly water vapour transmisson system and saves Breathable paint coatings system. Available in 5 & 18 litres.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Breathable Silicone Paints (Weatherseals) is used as finishing paint coating to protect the surfaces of exterior and interior wall and ceiling. For long lasting and durable. Vivasil Breathable Silicones Paint are non toxic, waterbased, lead free and eco friendly products. Its breathable properties will prevent major water seepages into wall especially those with micro cracks and hair line cracks. Available in 5 & 18 litres.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Interior Luxuries Paints I-Silk (Washable, easy to clean) should always be applied before one coat of Vivasil Interior luxuries Sealer and to be continued with minimum of two finishing coats of Vivasil Interior Luxuries paints. All newly plastered walls should be allowed to dry completely or cure at least 21 days before painting works. Do not paint if the surfaces are wet. Matt and Glossy Finish Available in 5 & 18 litres.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Interior Pro Emulsion Paint Finish is a hydro-soluble dispersion product based on high quality of acrylic polymers for ceiling and wall. The product is effective , high opacity and easy to use. The product has the possibilities of coloring limited to the basic shades of the Vivasil paints interior color cards. Surface must properly primed with Vivasil Interior Pro Sealer before paint application. Available in 5 & 18 litres.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Heat Reflective Exterior & Interior is a Waterbase Silicone technology paints. Its has Properties reduces solar heating up to 30 % , reduces air conditioning cost , highly water-repellent, Do not apply to damp or soiled substrates and not suitable for horizontal or sloping surfaces. Surface must properly primed with Vivasil Heat Reflective Primer before application. Available in 18 litres standard Exterior colour cards.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil MS-Sil Silicate Paint is a waterbase Silicate technology paints, also known as silicate mineral paint or mineral paint. A highly UV stable product in market. Silicate paints do not form a layer but instead permanently bond to surface called silicification processes . Surface must properly primed with Vivasil MS-Sil Silicate Sealer 601 or 701 before application. Available in 18 litres standard colour selection cards.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Wood & Metal Paint (I-GLOSS) is a fast air drying gloss /matte enamel paint suitable for all applications over Metal and wood . Surface must properly primed with Vivasil Wood and Metal Primer before application. All new or already painted surfaces should be free from dust, grease and waxes. Available in 5, 18 litres and standard colours card.

[Download Technical Datasheet at www.vivasil.com/products](http://www.vivasil.com/products)

Vivasil Nano Touch Paint is a waterbase Nano Technology self organizing crosslink adhesion components gives the surface layered with hydrophobic properties. Vivasil Nano Touch Paint can be used on direct metal, wood, concrete, plastered surface and porous absorbent material. Surface must properly primed with Vivasil Nano Touch Sealer before application. Available in 18 litres standard colour selection cards.
