Vivasil Paint Remover

Vivasil Paint Remover Solvent Base is a stripping solvent that effectively removes paint and varnish from wood, metal, and masonry. Vivasil Paint Remover unique patented formula is safer and strips most paints and acrylics, polyurethanes, epoxies and varnishes. Test a small area first for compatibility as the stripper may affect plastics, rubber, synthetic fibres or asphalt.

Vivasil Paint Remover allows you to use it both indoors and outdoors. Stripping is made easy. Vivasil Paint Remover requiring to work in small sections.

Vivasil Paint Remover penetrates and removes multiple layers in 15 minutes to 30 minutes to get to work and penetrate the project surface. If the coat hasn't completely lifted, give it more time for easy, one application removal.

Once lifted use a scraper to remove the old layered finish (on wood surfaces be sure to scrape in the direction of the grain). If many layers are present, a thicker first coat or possibly a second coat may be needed for complete removal.

Once the coating is removed simply wipe the surface clean with a soap.

For difficult to remove residue in corners and hard to get places, like those found on furniture, scrub with a sourer soaked with the Vivasil Paint Remover.

To finish up you simply wipe the surface with a clean cloth, and allow to dry completely before refinishing, (approximately 24 hours).

Shake well and pour into metal container and Brush a thick coat onto the surface. Available in 1, 5 and 18 litres.

(Flammable Solvent)

Always keep the area where you are using the thinner well ventilated, wear safety goggles and gloves, and make sure to dispose of all paint thinners safely.

Available in 1, 5 and 20 litres.
