Metallic Pearl Paint Colour Collection

VIVASIL™ PROVEN PAINT TECHNOLOGY

Vivasil VX-6 Metallic Pearl Paint Collection provides a beautiful metallic look durable for exterior and interior applications. These colors can be applied by brush, roller or spray equipment to exterior or interior architectural surfaces such as window mullions, plastered/concrete surfaces exterior paneling ,walls, ceilings, columns, trim, doors, furniture, and paintable wall coverings and other architectural features.It's water based,mold, mildew, and fungus resistant.All surfaces to be painted must be entirely free of dust, dirt,oil, grease, and other contaminants. For metal and wood surfaces use Vivasil VX-3 Nano Coat Paint

Use a high-quality brush recommended for water-based semi-gloss paints.Work in sections, approximately 3-4 foot wide, keeping a wet-edge, cross roll to improve coverage, finishing the surface by back-rolling in one direction, top to bottom. This procedure will minimize lap marks, properly orient the metallic particles and give a uniform appearance. For high gloss surface to be achieved use Vivasil 3D Clear Coat as a top coat layer.

Use high quality, low-tack tape when taping over surfaces that have been previously painted with Metallic Paint. When painting over taped-off areas be aware that Metallic Paints exhibit poor early adhesion properties and are elastomeric (They stretch) during curing. Because of these two factors consider cutting along the tape edge with a razor blade to avoid delaminating the fresh paint from the substrate.Recoat time is approximately 40 minutes .

For more information feel free to contacting our Vivasil Hotline at 03-87372495 or email to enquiry@vivasil.com or at our website www.vivasil.com

APPLICATIONS METHOD

Vivasil VX-6 Metallic Pearl Paint System
One coat of Vivasil VX-6 Metallic Pearl Paint Primer and two coat of Vivasil VX-6 Pearl Metallic Paint.

Patch all the cracks and holes using Vivasil Patching Compound. Do not Paint if the surface are wet where proctimeter reading exceed 18% WME.

Scrapped out all the concrete / plaster chipped before paint application. A newly plastered surface should be allowed to cure atleast 5 day before painting.

Apply Vivasil metallic pearl paint primer with roller or spray as undercoat to get high opaque substrates and to create greater adhesion between paint layers

Apply 2 coat of Vivasil Metallic Pearl Paint approximately 1.5 mils dry film thickness per coat.A minimum of 3 mils dry film thickness is required for hide and full colour development

METALLIC PEARL PAINT FOR PLASTERED SURFACES

WATERBASE PAINT SYSTEM -

APPLY VIVASIL VX-6 METALLIC PEARL SEALER ONE COAT AND TWO COAT OF VIVASIL VX-6 METALLIC PEARL PAINT EXTERNALLY AND INTERNALLY TO CONCRETE AND PLASTER SURFACES

- Easy Application water Cleanup
- Epoxy Bonding Technology
- Highly Washable
- Easy To Clean
- Non Toxic
- Anti Mould
- Anti Stain
- Anti Chalking
- Formaldehyde Free
- Odourless
- Alkaline Resistant
- Apeo Free
- Low VOC
- Resists Colour Fading
- Improves Colour Last
- Vibrant colours
- Algae & Fungus Resistant
- Environmental Friendly

NANO METALLIC PAINT FOR WOOD AND METAL

WATERBASE PAINT SYSTEM -

APPLY VX-3 NANO PEARL SEALER ONE COAT AND TWO COAT OF VIVASIL VX-3 NANO WOOD AND METAL METALLIC PEARL PAINT FINISH

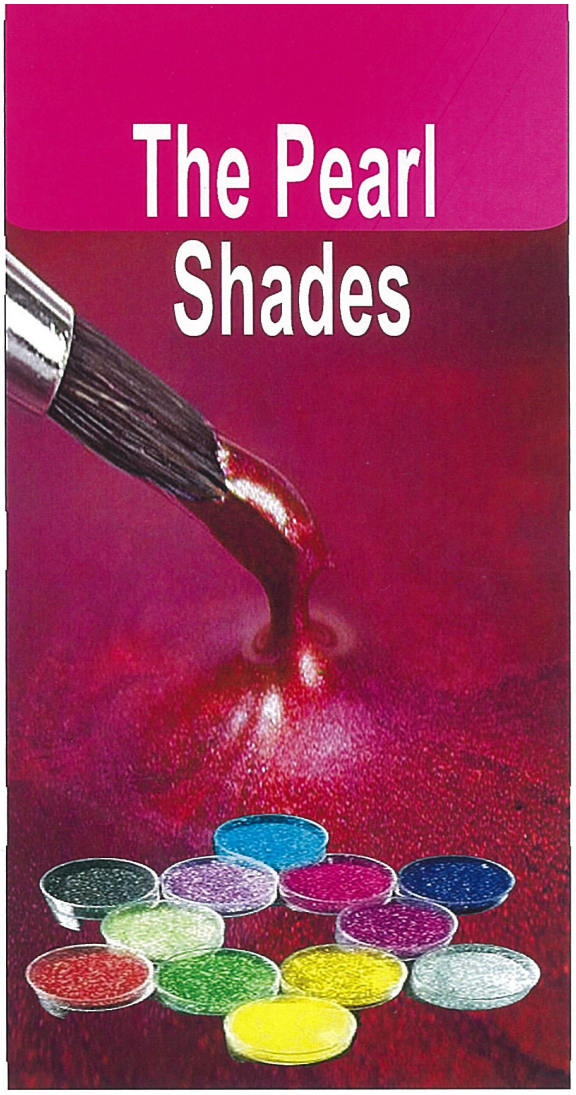

- Easy Application water Cleanup
- Epoxy Bonding Technology
- Highly Washable
- Easy To Clean
- Non Toxic
- Anti Mould
- Anti Stain
- Anti Chalking
- Formaldehyde Free
- Odourless
- Alkaline Resistant
- Apeo Free
- Low VOC
- Resists Colour Fading
- Improves Colour Last
- Vibrant colours
- Algae & Fungus Resistant
- Environmental Friendly

Before painting solve common wall problem with ***VIVASIL SILICONE SEALER*** as a base coat.

Vivasil Dry & Seal Water Repellent Primer is available in solvent / water based Exterior & Interior Treatment for newly plastered and concrete surfaces. Uses as deep penetrating impregnator water repellent, designed to help control Efflorences.Designed to use as undercoat for Vivasil Silicone Breathable Painting System.1 coat are recomended. Spray or roler.Do not mix water. Available in 5 & 20 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil Silicone Sealer is a Exterior Waterbase primer for repainting purposes is used as sealer to locks all loose particles on the wall and to create greater adhesion on the substrate.and prevents powdery surfaces Wash use waterjet high pressure 1500 psi before paint application.Its allow highly water vapour transmisson system and saves Breathable paint coatings system. Available in 5 & 20 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Interior Pro Emulsion Paint Finish is a hydro-soluble dispersion product based on high quality of acrylic polymers for ceiling and wall.The product is effective ,high opacity and easy to use. The product has the possibilities of coloring limited to the basic shades of the Vivasil paints interior color cards. Surface must properly primed with Vivasil Interior Pro Sealer before paint application.Available in 5 & 18 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil Breathable Silicone Paints (Weatherseals) is used as finishing paint coating to protect the surfaces of exterior and interior wall and ceiling.For long lasting and durable. Vivasil Breathable Silicones Paint are non toxic,waterbased,lead free and eco friendly products. Its breathable properties will prevent major water seepages into wall especially those with micro cracks and hair line cracks.Available in 5 & 18 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil Nano Touch Paint is a waterbase Nano Technology self organizing crosslink adhesion components gives the surface layered with hydrophobic properties.Vivasil Nano Touch Paint can be used on direct metal,wood, concrete,plastered surface and porous absorbent material. Surface must properly primed with Vivasil Nano Touch Sealer before application.Available in 18 litres standard colour selection cards.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil VX-6 Metallic Pearl Paint finish is a hydro-soluble dispersion product based on high quality of modified acrylic polymers for interior wall.This product perfect for Hospitality , Commercial/Retail , Residential ,Corporate Offices ,Casinos ,temples,mosques,churches and Theme Parks.The product is waterbased easy to use.Surface must properly primed with Vivasil Metallic Pearl Sealer before paint application.Available in 5 & 18 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil VX-3 Metallic Nano Pearl Paint finish is a waterbase nano dispersion product with modern day paint technology to formulate Metal Effects oxidizing paints for wood and metal surfaces.These products create the distinctive look of bronze and copper or the weathered appearance of rusted iron on any paintable surface. Surface must properly primed with Vivasil Nano Touch Sealer before paint application.Available in 5 & 18 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil 3-D CLEAR is a extra protection to the coating for improve the washability and protects again dirt,water staining marks. Also creates a high gloss surface achieving 3d affect light reflecting.Highly recommended as top coat layer of Vivasil Metallic Pearl Paint finish coating system.It specially formulated using waterbased paint system which are lowest VOC content .One coat are required.Available in 5 & 18 litres.

Download *Download Technical Datasheet at www.vivasil.com/products*

Vivasil Clear UV Coat Nano create a fade-resistant and UV protection to colorants act as top coat protection and providing high gloss clear coat system.Vivasil UV Coat are using our silicone protection activator to stand in extreme weathering properties.Surface must properly painted as top coat application.Painted surfaces should be protected from direct rain or moisture before its cured properly. Available in 5 and18 litres
