Vivasil 898 Wood Filler

Vivasil 898 Wood Putty is a fast and effective wood-filling system that has been specially formulated for the repair of knots, splits, deep scratches, and other forms of deep wood damage. Its tough characteristics make it perfect for repairing wooden doors, window frames, furniture, floors, and more. Vivasil 898 Wood Putty repair sticks fill wood defects quickly and efficiently, with a lower working and setting time than many wood putties or waxes. Once the area has been filled, the material quickly sets to a hard finish, enabling the excess area to be sanded down and treated in the normal way. Easy to apply. Stir before use. Place in cool and dry. Close tight after use. Ready to use available in 5, 18 litres/25kg

Storage:

Store in closed containers at temperature below 32°C and away from heat sources and sunlight. When properly stored, will remain stable for 12 months from date of delivery.
