Vivasil 526 Nano Floor Wax

Vivasil 526 Nano Floor Wax

Vivasil 526 Nano Floor Wax Stone, Tile & Laminate Floor Polish is specially formulated for a variety of hard surfaced floors, ideal for home or office floor maintenance and revival. The 526 Nano Floor Wax polish protects and gives a new shine to hard surface floors, the Polish contains wax and is resistant to scuff marks and scratches. Dilute to 3 part of water. Apply with the sponge or Microfibre or mop for excellent results. Vivasil 526 Nano Floor Wax is a Concentrate care treatment for internal surfaces to mopping leaves a thin replenishing, protective layer on the surface, without making the surface slippery.

For various surfaces:

Cleaning of waxed and oiled surfaces, flooring, paneling, ceiling lining, doors, furniture, countertops and laminate, as well as lacquered parquet and cork surfaces. Meets Australian and German regulations on combustible liquids. Safe for humans, animals and plants after drying. Food and toy safe. Contains no biocidal substances or preservatives. White paste after dry become transparent, ready mixed, thin bed, interior

Surface Preparation:

Dry-clean (broom or vacuum cleaner) the floor prior to washing. Clean and maintain floor as needed. Small surfaces:

- Use the spray bottle and cloth or micro-fibre mop.
- Use a mop and bucket for larger areas. Micro-fibre mops are fine on oiled floors, however, please do not use them on other coatings as they can possibly remove a thin layer of oil over time.

Maintaining wax Floors:

Add approximately 25-30 ml Vivasil 526 Nano Floor Wax to 6-8 litres of fresh water (1 bucket) and mop moist.

1. Pick up moisture with wrung out cloth.
2. Alternatively mix ½ a teaspoon of concentrate into a 1L spray bottle, mist the floor and dry mop.
3. Do not mop with water only, because this will remove the protective film.

Maintaining Oiled Floors:

4. Add approximately 80-100 ml Vivasil 526 Nano Floor Wax to 6-8 litres of fresh water (1 bucket) and mop moist. Do not use Micro-fibre Mop as these strip oil from the surface. Do not mop with water only, because this will remove the protective film.
